

Press Release

Blackstone-NEY Ultrasonics Introduces the “New” GMC-3523 *Grease Monkey Classic*

April 2010 – Cincinnati, OH

[Cleaning Technologies Group, LLC](#), a Cincinnati based manufacturer of precision [parts washers](#), is proud to introduce the new version of its Grease Monkey Classic, model GMC-3523 aqueous parts washer.

A popular “Quick Ship” portable ultrasonic cleaning system, the GMC-3523 can accommodate parts with one dimension up to 35 inches. Fully automated using ultrasonics, oil removal, and particulate filtration to improve cleaning performance, it permits optimum operation with minimal operator involvement. This aqueous cleaning system eliminates the need for solvent cleaners and it’s completely self-contained on casters, ready to go where needed. It’s great for cleaning small to large parts with a platform load capability up to 125lbs and working dimensions of 35 inches left to right, 23 inches front to back, and 18 inches deep.

Now five inches shorter in height with new and improved “U1B transducers” and all “solid state” controls, the new GMC-3523 is designed more ergonomically efficient and user friendly.

Cleaning Technologies Group, LLC is a world leader in providing innovative cleaning and waste minimization technologies to precision and industrial manufacturing markets. CTG is comprised of Ransohoff located in Cincinnati, Ohio, and Blackstone~NEY Ultrasonics located in Jamestown, New York, and now CTG Asia located in Suzhou, China. The Group is the premier provider of high technology, environmentally friendly parts-cleaning and waste-minimization equipment and services to the global marketplace. CTG LLC is a wholly owned subsidiary of NM Group Global, LLC.

NM Group Global LLC is a holding company for a growing group of manufacturing firms with a global reach for sourcing and marketing. Founded in 2002 with the purchase of National Machinery LLC, the original holding company, and world leader in the development and manufacture of cold forming machines, process technology, and aftermarket services. National Machinery, founded in 1874, is headquartered in Tiffin, Ohio with service centers and sales offices throughout the world.

NM Group Global is distinguished by its ability to be acquisitive by having a private equity affiliate, Alpha Capital Partners Ltd. Alpha Capital, founded in 1984, is a private equity investment firm which provides equity financing for promising growth businesses and for buyouts or recapitalization of established companies. Currently Alpha Capital manages over \$135,000,000 through its capital partnerships and other equity accounts.
